EDUCATION

Cranfield University

Cranfield, UK | Sep 2025 – Sep 2026

MSc in Advanced Mechanical Engineering (Current Average: 73%, on track for Distinction)

Thesis: Effect of SO₂ Concentration and Alkali Deposition on the Corrosion Behaviour of Supercritical CO₂ Turbine Blade Alloys (Industry-Sponsored)

University of Glasgow

Glasgow, UK | Sep 2020 – May 2024

BEng Hons in Biomedical Engineering (Upper Second Class)

Thesis: Construction of 3D Piezoelectric Scaffolds for Muscle Regeneration, 68%

Publication: Second author, bioRxiv preprint on piezoelectric scaffolds (2025), awaiting publication at *Small Journal*

PROFESSIONAL EXPERIENCE

PwC

Nicosia, Cyprus | Jun 2025 – Aug 2025

Business Consulting Summer Intern

- Worked with the business consulting team on two semi-governmental proposals in the healthcare and telecommunications sectors, each worth over €200,000, both of which were won
- Helped map the merger of two HR departments, researching best practice to streamline the combined team
- Researched industry benchmarks that informed the team's consulting methods and proposals

Fender S.A. (Cambiasso Risso Group)

Athens, Greece | Jun 2023 – Aug 2023

Data Management Summer Intern: Marine Insurance

- Consolidated contract data from Excel, PDF and accounting records across Europe, the UK, the US, China and the Middle East into the company's proprietary system, cutting contract generation time by 50%
- Audited records against multinational contracts and financial data, correcting errors and reducing broker mistakes

Agency for Quality Assurance, Greek Ministry of Health

Athens, Greece | Jun 2022 – Aug 2022

Summer Intern: Hospital Quality and Safety

- Checked hospital defibrillators and equipment for emergency readiness in Thessaloniki and Chania (ISO 13485)
- Reported best practice for nursing-staff training from statistical analysis of university-supplied data
- Drafted directives for the "Safe Hospitals" project, extending emergency SOPs to all Greek public hospitals

RESEARCH & PROJECT EXPERIENCE

Cranfield University

Cranfield, UK | 2026

MSc Thesis Researcher: High-Temperature Corrosion (Industry-Sponsored)

- Ran a 1,000-hour furnace test on nickel- and cobalt-base alloys in a simulated supercritical CO₂ environment, controlling SO₂ concentration and salt deposition
- Prepared metallographic cross-sections, measured metal loss by optical metrology and identified corrosion mechanisms with SEM and EDX

University of Glasgow, Advanced Research Centre

Glasgow, UK | Sep 2023 – Apr 2024

Undergraduate Researcher: Piezoelectric Scaffolds for Muscle Regeneration

- Fabricated electrospun nanofibre scaffolds that mimic muscle geometry and tested them mechanically and by SEM
- Modified the fibres' surface polarity to improve cell adhesion, then assessed biocompatibility and differentiation

Cranfield University

Cranfield, UK | 2025 – 2026

Group Project: Rare-Earth-Free Wind Turbine Generator (Team of Four)

- Ran all Maxwell and RMXprt simulation of a 2 MW direct-drive generator redesigned with a wound rotor, reaching 2.5 MW peak output at 92.7% electromagnetic efficiency

ADDITIONAL SKILLS

CAD Skills: Autodesk Fusion 360 (Intermediate), SolidWorks (Intermediate)

Simulation Skills: FEA/FEM Abaqus (Intermediate), Ansys Fluent, Design Modeler and ICEM CFD (Intermediate), Simulink (On-Ramp Certified), Ansys Electronics (Intermediate), MOFEM (Beginner), COMSOL Multiphysics (Beginner).

Coding Skills: Python (Advanced), MATLAB (Advanced), HTML 5 & CSS (Intermediate), R (Beginner), Microsoft 365 (Advanced).

Further Skills: 3D/Extrusion Printing (Intermediate), SEM Imaging (Advanced), Cell Culturing (Advanced), Optical Microscopy (Advanced), qPCR for gene expression (Intermediate).

Languages: English (Native), Greek (Native), German (Intermediate, B1 & IB Certification)

EXTRA-CURRICULAR & INTERESTS

- Kickboxing and Brazilian-Jiu-Jitsu | Motorcycle restoration
